Through the efficient leadership and originality of MRS. ALBERT BERLER, past President of Brandeis University Nat'l. Women's Committee, an educational and humanitarian program was adopted by NATIONAL and put into action - "BOOKS TO FEDERAL PRISONS."

Approximately 300,000 books have been placed in various Federal Prisons at this time. Their appreciation and enthusiasm in the acceptance of these books has been tremenduous.

The Brandeis Women's Committee thinks of the project in ecological and human terms. "We are recycling knowledge," said MRS. SOLOMON STERN, President of our National Women's Committee.

PRESIDENT OF THE UNITED STATES to

" THE WHITE HOUSE "

Washington
January 8, 1975

Dear Mrs. Berler:

It was a pleasure to learn recently of your dedicated service to your community and your extraordinary personal commitment to improving prison libraries throughout the Federal Correctional Institutional System.

I understand that through your initiative and support, the Brandeis University National Women's Committee has collected and donated tens of thousands of books to the Bureau of Prisons. This project, supported by your tireless efforts, has undoubtedly benefitted every institution and inmate in the Federal Prison System and does indeed merit special commendation.

I am pleased to extend my congratulations and best wishes for continued success in this very worthy endeavor.

Sincerely,
